World Awareness Trust Healing Focus Pyramid INSTRUCTIONS FOR MAKING

You can use paper, but the pyramid is best printed onto card of weight about 160 gm/m². The finished pyramid has 3 visible faces, showing the logo of the World Awareness Trust. Dotted lines show folds; solid lines show cuts. Here is one way of making the pyramid:

- If using card, first **score** the **dotted** lines lightly to help with folding.
- Before cutting out, **fold** along the 3 **long** lines which cross in the centre of the diagram.
- Next **cut** around the outline shown by the **solid** lines.
- **Fold** the card so that the three **faces** with the **pictures** of the earth form a 3-sided pyramid.
- Then position the **locking shapes** - note the order:
 - o First triangle **A** is **placed beneath** the **right hand** earth picture.
 - o Next area **B** is **folded beneath** triangle **A**.
 - o Lastly triangle **C** is **folded beneath** area **B**.
 - o If you wish, you can apply **adhesive** between areas **B** and **C**.
